

**ORLEN OIL CLASSIC SEMISYNTHETIC BASIC 10W-40****General features**

Semi-synthetic, multigrade engine oil made of base oils and special enriching additives. It allows to obtain excellent oil parameters, reduces the risk of excessive valve wear and at the same time provides better deposit control.

It guarantees:

- effective protection and cleanliness of the engine by keeping soot in suspension,
- failure-free engine operation during start-up in difficult conditions,
- correct level of anti-wear protection of engine components,
- extending engine life

Application:

Engine oil intended for the lubrication of loaded gasoline engines and turbochargers non-turbocharged diesel engines in passenger cars, as well as in light vans and vans. The oil can be used in new type engines as well as several years old, older type with higher mileage, for which the manufacturer recommends oils of lower classes.

Standards, specifications

API: SL/CF

Physical and chemical properties:

Parameters	Unit	Typical values
Kinematic viscosity at 100°C	mm ² /s	14,63
Viscosity Index	-	152
Pour point	°C	-27
Flash point	°C	220
