

**ORLEN OIL CLASSIC 20W-50****General features**

Oil ORLEN OIL CLASSIC 20W-50 is a multigrade mineral oil, made to protect engines with significant progress. Carefully selected additives allow keeping sludge in the form of suspension, which is particularly important in the case of worn-out units. The formula "Reduce Oil Consumption" helps reducing leaks and oil consumption.

Guarantees

- Maintaining engine cleanliness
- Reduction of oil refills
- Protecting the most vulnerable parts of the engine

Application

ORLEN OIL CLASSIC 20W-50 is designed for all-year use in petrol engines in passenger cars and LDVs. It is recommended for use in all driving conditions, both in the summer and winter.

Viscosity grad

SAE: 20W-50

Quality class

API: SN

Physical and chemical properties

Parameters	Unit	Typical values
SAE viscosity grade	-	20W-50
Kinematic viscosity at 100°C	mm ² /s	18,6
Low-Temperature (°C)Cracing Viscosity	mPa*s	5200
Flash Point	°C	230
Pour Point	°C	-33
TBN base number	mg KOH/g	10,2
Note: Physicochemical parameters listed in the table are typical values. Real values are stated in quality control certificates attached to each product lot.
